

Why AdvisoryPro?

AdvisoryPro is a unique performance improvement offering helping to increase the efficiency and effectiveness of your company's key business operations. Using our experience and understanding of finance, risk management/compliance, IT systems and operations, we help centres to identify and implement cost saving initiatives, improve management and control and manage risk. We also provide hands-on assistance to improve financial under-performance and cash-flow management.

With over 20 year's industry experience, we are able to leverage in-depth local expertise. Our industry understanding ensures tailored solutions to support your response to increasing regulation, competition, risk and costs.

To help you manage the challenges your business faces, we apply data, technology and change and program effectiveness skills to:

- Improve IT effectiveness
- Increase financial effectiveness
- Strengthen risk and compliance business operations
- Support the development of your organisation's talent.

Three Phase Process

1. Assessment

- The team reviews your policies and procedures, and observes corporate, credit and risk cultures that support their implementation. At the end of this phase, we provide senior management with a report of findings and recommendations for action.

2. Design & Implementation

- If you choose to act on recommended actions using AdvisoryPro as your service provider, AdvisoryPro experts work with your team to develop policies, streamline procedures, or craft new structures to address your needs. At the end of this phase, AdvisoryPro provides senior management with a report on progress and recommendations for implementation.

3. Execution

- If you choose to enlist AdvisoryPro for assistance with implementation, we provide coaching and training to help your team ensure a smooth transition and lasting change.

How we work:

- 1. Collaborative efforts**
We partner with you to find and implement solutions customised to your needs. For change to be successful, you must drive the process.
- 2. The right expertise**
We bring the right experts to the field so their experience can focus on your issues.
- 3. Results-oriented focus**
We provide workable solutions, not theory. Implementation is the key.
- 4. Timely execution**
Tasks, results, accountabilities and schedules are specified and met. Performance is monitored and reported.
- 5. Transferable skills**
At project's end, our intent is to hand off all materials, processes, and skills to your people who are by then capable of taking over.
- 6. Attention to organisational culture**
In addition to the implementation of policies and procedures, we work with you to develop organisational, risk, and credit cultures to support the change.
- 7. Honesty and integrity**
We take our client relationships very seriously. We honor our commitments, are bound to the highest ethical standards in the performance of our duties, and maintain confidentiality at all times.
