

KPI Reporting

KPI Reporting Tools

- Key Performance Indicators (KPI) are financial measures used to help your organization define and evaluate how successful it is, typically in terms of making progress towards its long-term goals.
- The fully functional reporting tool allows you to manage your business in real time across key performance areas such as:
 - Occupancy
 - Wage cost and rostering
 - Parent debtors and CCB reconciliations
 - Long day care vs. vacation care
 - Ability to manage large number of centres in line with Industry Best Practice
 - Usage ratios
 - EBIT
 - Dashboard Monitoring Tool
 - Graphing / Pie Charts
