

Offering same day transaction processing and improved cash flow to make managing your business easy. Kidsoft offers a cutting edge payment gateway with no contracts, no establishment fees, no monthly access fees, and no merchant fees! Kidsoft is specifically designed to make managing your business easy, giving you more time and flexibility to focus on what is important to you. Unlike other CCMS providers, Kidsoft has no hidden fees and never locks you into any contract.

Kidsoft Payment Gateway

- National Australia Bank (NAB) is PCI compliant
- NAB holds all card/bank account information
- Real-time payments
- No penalty fees for failed transactions
- Centre and group level debt management
- Free access through Kidsoft

Other Payment Gateways

- Two separate processes to capture payments during the day and funds are forwarded once *deemed cleared?*
- Third party holds all card and bank account information
- Complicated fee schedules
- Application and agreement with third party
- Merchant fees and monthly access fees

Simple Cash Flow Management

Stop waiting for your payments to be processed through third parties. With Kidsoft's innovative new business model, your payments are processed in real-time and your customer statements are automatically updated.

Responsive to Customer Desires

Since Kidsoft does not require any software installations, it is easy for us to provide free, live updates to the application. The built in messaging system makes contacting our help desk easy. New features will be coded and tested by our developers before becoming automatically available to you.
